

Please remember, as you consider your contribution to this program, FACE will provide to our working single mothers a fresh start. They will enjoy a time of refreshing, a host of seminar training and financial assistance with household obligations.

These mothers have been forgotten by mainstream agencies and organizations that usually offer assistance to those who meet the poverty guidelines but working single mothers all across our nation are just above that line and are entitled to no assistance and, in most cases, no charitable donations – they have been forgotten. These mothers are relentless and work hard at caring for their families and The FACE Program along with your contributions will help these mothers receive the hand up their needing.

Your generous contribution is appreciated and your partnership allows us to help us remember our working single mothers and aid us in providing them with not only a hand up but with resources and tools for a positive outlook for tomorrow – while raising their children.

Please make a copy of this slip before returning it with your contribution for tax purposes.
